

# OADDL

College of Veterinary Medicine

## Fee Schedule (effective 7/1/26) General Policies

### HOURS OF OPERATION

- **Routine business hours** are 8am – 5pm, Monday-Friday (excluding OSU holidays), no appointment necessary
- **Weekend & Holiday Necropsy submissions** are by appointment only during 8am – 5pm and incur a \$125 Emergency Fee.
- **No services are available after 5pm**

### AFTER-HOURS SAMPLE DROP-OFF (Receiving vestibule, west side of building)

- **Incubator** – Trich pouches
- **Mini Refrigerator** – Fresh tissue, blood, Trich PBS tubes (samples only, *no bodies*)
- **Drop box** – Fixed tissue

### RABIES SPECIMENS ARE ACCEPTED 24/7/365

- Rabies specimens must be secured in a leak-proof container with a [Rabies Submission Form](#) attached.
- Outside of regular business hours, call OSU Police Department at 405-744-6523 upon arrival at OADDL for assistance with submission.
- Whole bodies >12 inches or specimens not properly packaged must be submitted between 8am and 5pm.

### SUBMISSION GUIDELINES:

- **Live animals are *not* accepted.**
- Non-human primate submissions require prior approval.
- Cosmetic necropsies are not performed, and remains are not returned to submitters.
- Private cremation requests must be indicated at the time of submission. Submitter must make arrangements with a crematory within 10 business days of submission.
- Contact OADDL prior to submission of Research samples.
- Expedited (STAT/Rush) testing requires prior approval. A STAT fee will be charged.

### FEES & BILLING:

- Charges in this Fee Schedule apply to diagnostic testing and are subject to change.
- A complete list of fees and additional test/sample information can be found in our test Catalog, <https://portal-prod.vetmed.okstate.edu/portal/catalogSearch.zul>
- Veterinarians may charge additional fees for sampling and interpretation.
- A \$5 Accession fee will be charged to each submission except for *Coggins/EIAs, Rabies, contract testing and supply orders*.
- Reports are emailed at no cost. A \$5 fee will be charged to mail reports via USPS (excluding regulatory papers).
- Legal Necropsy cases will incur an additional \$500 charge.
- A Summary of Charges is included with the final report; official invoices are issued monthly by OSU Bursar.
- A handling/reporting fee of \$8.00 will be applied to each accession for *Antech only* submissions
- Shipping fee to referral laboratories varies from ~\$18 - \$30.
- Delivery/reporting fee of \$10 will be applied for samples transferred to local referral lab.

### POLICY:

- Submission of specimens to OADDL constitutes a contract for which the product is test results. The submitted specimens, as well as any products and data derived from them become OADDL property.

# OADDL

College of Veterinary Medicine

<b>GENERAL</b>		
<b>Service / Test</b>	<b>Fee</b>	<b>Turnaround Time (Business Days)</b>
<b>Accession Fee</b> (excludes EIAs, rabies, supply orders and Contract testing)	\$5.00	
<b>Mailed report by USPS</b> (excludes regulatory papers)	\$5.00	--
<b>Legal Case</b> (for necropsy submissions)	\$500.00	--
<b>Emergency Fee</b> (for weekend & holiday necropsy submissions)	\$125.00	--

<b>RABIES ADD-ON FEES (to be billed to the submitter)</b>		
<b>Whole body submitted ≥12 in length, (excludes rabies testing with necropsy)</b>		
Decapitation (dogs, cats, raccoon etc.), plus disposal	\$35.00	--
Decapitation (cow, horse etc.), plus disposal	\$50.00	--
<b>Whole head submitted (cow, horse etc.)</b>	\$35.00	--

**CLINICAL PATHOLOGY (Antech Diagnostics, Inc.)**  
 Charges for hematology, cytology, & clinical pathology services are levied by Antech Diagnostics, Inc. A handling/reporting fee of \$8.00 will be applied to each accession for *Antech only* submissions.

<b>NECROPSY</b>		
Necropsy charges include gross examination & histopathology. Laboratory testing & disposition of animal remains incur additional fees.		
<b>Multiple, related neonates (&lt;1 month old), submitted at the same time</b>		
Food animal	\$235 for up to 2 animals of same species per accession	
Equine	\$300 for up to 2 animals of same species per accession	
Companion animal	\$205 for up to 3 animals of same species per accession	
<b>Multiple, related (non-neonate) animals submitted at the same time</b>		
Food animal	\$235 for the first animal, \$50 for each additional (max of 3/accession)	
Equine	\$300 for the first animal, \$50 for each additional (max of 3/accession)	
Companion animal	\$205 for the first animal, \$30 for each additional (max of 3/accession)	
Poultry	\$105 for up to 3 birds of the same species	
<b>Species / Test</b>	<b>Fee</b>	<b>Turnaround Time (Business Days)*</b>
<b>Small Animals- companion &amp; exotic necropsy</b>	\$205.00	5-15
<b>Large Animals- food animal &amp; exotic necropsy</b>	\$235.00	5-15
<b>Equine</b>	\$300.00	5-15
<b>Poultry</b>	\$105.00	5-15
<b>Field Necropsy - Necropsy in a jar</b>	varies	5-10
<b>Spinal cord removal (only available with necropsy)</b>	Sm. Animal \$60.00 Lg. Animal \$200.00	-
<b>Small animal limb examination (with disposal)</b>	\$55.00	5-10

\* Necropsy and histopathology reports will be completed within 5-15 business days. *Legal, Possibly Legal or Insurance* submissions and cases involving ancillary tests such as bacteriology, mycology, molecular or toxicology may take much longer to finalize.

# OADDL

College of Veterinary Medicine

DISPOSITION OF ANIMAL REMAINS		
<p><b>Incineration</b> (no ashes returned) is the default mechanism for all companion animals. See below.  <b>Private Cremation</b> (ashes returned) is available upon request at the time of submission. Submitter is responsible for making arrangements with the crematory of their choice within 10 business days of submission. The crematory will pick up the remains at OADDL. A hold charge will apply (see below).</p>		
Companion animal/exotics < 10 pounds	\$25.00	--
Companion animal/exotics 11-40 pounds	\$40.00	--
Companion animal/exotics > 41 pounds	\$60.00	--
Food Animal/Equine < 100 pounds	\$60.00	--
Food Animal/Equine 101-500 pounds	\$125.00	--
Food Animal/Equine 501-1,000 pounds	\$135.00	--
Food Animal/Equine 1,001-1,500 pounds	\$155.00	--
Food Animal/Equine >1,501 pounds	\$175.00	--
Private cremation hold charge, small animal	\$15.00	--
Private cremation hold charge, large animal	\$55.00	--

## Serology & Molecular Diagnostic (PCR) Tests are Listed Below by Species.

AVIAN		
Species / Test	Fee	Turnaround Time (Business Days)
Avian Influenza ELISA (serum)		
1-49 samples	\$5.00 each	1-2
>50 samples	\$2.75 each	1-2
Avian Influenza Agar Gel Immunodiffusion (AGID)	\$4.50	4-7
Avian Influenza PCR (oropharyngeal/tracheal or cloacal swab, trachea)	\$50.00	1-2
Exotic Newcastle Disease (END/APMV-1) PCR (oropharyngeal/tracheal or cloacal swab, trachea)	\$50.00	1-2
<i>Mycoplasma gallisepticum</i> / <i>M. synoviae</i> ELISA (serum)		
1-49 samples	\$4.50	2-3
>50 samples	\$2.00	2-3
<i>Mycoplasma gallisepticum</i> / <i>M. synoviae</i> PCR (oropharyngeal/tracheal swab, respiratory tract tissue)	\$50.00	2
<i>Salmonella pullorum-typhoid</i> agglutination (serum)		
1-49 samples	\$4.00 each	2-4
>50 samples	\$1.25 each	2-4
<i>Salmonella pullorum-typhoid</i> microagglutination titer (serum)	\$4.00	2-4

BOVINE		
Discounted Serology Test Panels		
Species / Test	Fee	Turnaround Time (Business Days)
<b>Bovine Abortion-</b> <i>Leptospira</i> , IBR, BVD SN, BVD ELISA, <i>Brucella</i> & Neospora (serum)	\$54.00	3-7
<b>Bovine ELISA Panel-</b> BVD, BLV, Johnes; 11+ animals (serum)	\$20.00	2-5
<b>Bovine Respiratory SN Profile 1-</b> IBR, BVD-1, PI3, BRSV (serum)	\$30.00	3-7
<b>Bovine Respiratory SN Profile 2-</b> IBR, BVD-1, BVD-2, PI3, BRSV (serum)	\$35.00	3-7
Discounted Molecular Test Panels		
Bovine Respiratory Panel (Basic)- BVD, IBR & BRSV (respiratory tract swab, lung)	\$62.00	2-5
Bovine Respiratory Panel (Comprehensive)- BVD, IBR, BRSV, BCV and <i>M. bovis</i> (respiratory tract swab, lung)	\$82.00	2-5
<i>Theileria orientalis</i> ( <i>differentiates Ikeda and Chitose</i> ) and <i>Anaplasma</i> PCR (EDTA blood, spleen)	\$55.00	2-5
<b>Serology Routine Testing-</b> A 10% volume discount applied to ELISA tests when 20+ samples are submitted for the same test on a single submission. <i>Exceptions:</i> regulatory testing, discounted panels/tests and referral laboratory testing.		
Abortion Panel (fetus)	See page 8	7-10
<i>Anaplasma</i> ELISA (serum)	\$13.50	2-3
<i>Anaplasma marginale</i> PCR (EDTA blood, spleen)	\$45.00	2-5
Bluetongue ELISA (serum)	\$10.50	2-3
Bluetongue PCR (EDTA blood, spleen)	\$47.00	2-5
Bovine Coronavirus PCR (feces, intestine, lung, respiratory tract swab, fecal swab)	\$45.00	2-5
Bovine Leukemia Virus (BLV) ELISA (serum)	\$10.50	2-3
Bovine Leukemia Virus (BLV) PCR (EDTA blood, spleen)	\$45.00	2-5
Bovine Respiratory Syncytial Virus (BRSV) SN (serum)	\$11.00	4-7
Bovine Respiratory Syncytial Virus (BRSV) PCR (lung, nasal swab or respiratory tract swab)	\$45.00	2-5
<i>Brucella abortus</i> / <i>B. suis</i> (serum) card test	\$4.75	1-2
<i>Brucella abortus</i> Fluorescence Polarization Assay (FPA)	\$4.50	1-2
BVD ELISA (serum or fresh ear notch) 1-5 samples >5 samples	\$9.00 each \$5.50 each	2-3 2-3
BVD Type I SN, (Type 1 or 2 available) (serum)	\$11.00	3-7
BVD PCR (lung, lymph node, kidney, spleen, serum)	\$45.00	2-5
Diarrhea Panel	See page 9	4-6
General Herpesvirus PCR (multiple tissues/fluids, swab) DNA Sequencing of positives, additional fee	\$50.00 \$30.00	2-5 2-5

# OADDL

College of Veterinary Medicine

<b>BOVINE, continued</b>		
<b>Species / Test</b>	<b>Fee</b>	<b>Turnaround Time (Business Days)</b>
IBR SN (serum)	\$11.00	3-7
IBR PCR (nasal or eye swab, tissues, lung, liver, brain)	\$45.00	2-5
Johne's ELISA (serum)	\$10.50	2-3
Johne's individual PCR (feces, 5g minimum)	\$48.00	2-5
Johne's pooled PCR (feces, 5g minimum) Submit samples individually, <= 5 fecals/pool). If pool is positive, ea. fecal sample will be tested at \$48 ea.	\$55.00	2-5
<i>Leptospira</i> MAT ( <i>L. canicola</i> , <i>L. grippityphosa</i> , <i>L. hardjo</i> , <i>L. icterohemorrhagiae</i> , <i>L. Pomona</i> , <i>L. autumnalis</i> ) (serum)	\$29.00	2-3
<i>Leptospira</i> sp. PCR (kidney, urine)	\$37.00	2-5
<i>Mycoplasma bovis</i> PCR (lung, joint fluid, resp. tract swab)	\$40.00	2-5
<i>Neospora</i> ELISA (serum)	\$12.00	2-3
Parainfluenza 3 (PI3) Virus SN (serum)	\$11.00	3-7
Pregnancy ELISA (serum)	1-5 animals = \$10.00 >5 animals = \$5.00	2-3 2-3
Rotavirus group A, Immunocard test (feces, intestine)	\$35.00	2-5
<i>Theileria orientalis</i> (differentiates <i>Ikeda</i> and <i>Chitose</i> ) PCR (EDTA blood, spleen)	\$45.00	2-5
<i>Tritrichomonas foetus</i> culture (Individual InPouch™ TF). Positives must be confirmed by PCR	\$15.00 \$27.00	7
<i>Tritrichomonas foetus</i> PCR Individual InPouch™ TF or PBS tube	\$27.00	1-3
<i>Tritrichomonas foetus</i> pooled PCR Submit individual InPouch™ TF or PBS tubes. If pool is positive, specimens will be tested individually at \$27 ea.	\$54.00/pool (up to 5 animals)	1-3
<b>CANINE</b>		
<b>Discounted Serology Test Panels</b>		
<b>Species / Test</b>	<b>Fee</b>	<b>Turnaround Time (Business Days)</b>
Tick Profile- antigen to <i>Dirofilaria immitis</i> & antibody to <i>E. canis</i> , <i>E. ewingii</i> , <i>A. phagocytophilum</i> , <i>A. platys</i> , <i>B. burgdorferi</i> (Lyme) and RMSF (IFA) (serum)	\$60.00	2-3
<b>Routine Testing</b>		
Abortion panel (fetus)	See page 8	5-7
<i>Brucella canis</i> IFA (serum)	\$42.00	2-3
Canine Distemper Virus PCR (lung, EDTA blood, nasal swab, conjunctival swab, CSF, urine)	\$47.00	2-5
Canine Herpesvirus PCR (respiratory tract swab/tissue, kidney, liver)	\$45.00	2-5
Canine Influenza PCR (respiratory tract swab/tissue)	\$45.00	2-5

College of Veterinary Medicine

<b>BACTERIOLOGY</b>		
<p>Bacteriology fees are levied on a per sample basis unless otherwise specified. Test packages include up to 2 antibiotic susceptibility profiles on organisms selected by OADDL microbiologist. Additional antibiotic susceptibility profiles performed at submitter's request will be charged at the routine testing rate. The urine package below does not include free-catch samples.</p>		
<b>Bacteriology Discounted Test Packages</b>		
<b>Species / Test</b>	<b>Fee</b>	<b>Turnaround Time (Business Days)</b>
Aerobic culture with antibiotic susceptibility(ies)	\$70.00	2-3
Additional culture (ID only) from additional site/swab from the same animal	\$20.00	2-3
Anaerobic culture & Aerobic culture with antibiotic susceptibility(ies)	\$80.00	5
Fungal culture & Aerobic culture with antibiotic susceptibility(ies)	\$95.00	14 minimum
<i>Salmonella</i> culture with antibiotic susceptibility	\$45.00	3-4
Urine culture with antibiotic susceptibility(ies) (cystocentesis or catheter-collected)	\$40.00	2-3
Milk culture (includes one antibiotic susceptibility test by Kirby-Bauer)	\$28.00	2-3
Additional antibiotic susceptibility(ies) (per isolate)	\$10.00	2-3
<b>Bacteriology Routine Testing</b>		
Aerobic culture	\$37.00	2
Anaerobic culture	\$39.00	5
Antibiotic susceptibility (MIC)	\$38.00	1-2 days after culture
Antibiotic susceptibility (Kirby-Bauer / Disc Diffusion)	\$37.00	1-2 days after culture
Blood culture (aerobic / anaerobic)	\$36.50 / \$38.50	4 / 8
<i>Bacillus anthracis</i> culture	\$50.00	2
<i>Campylobacter spp.</i> culture	\$28.00	7
<i>Clostridium spp.</i> culture / Blackleg	\$15.00	2-3
<i>Clostridium chauvoei</i> Fluorescent Antibody (FA)	\$20.00	1-2
<i>Clostridium perfringens</i> culture	\$15.00	2-3
Direct smear examination (acid-fast, Gram)	\$13.00	1
MALDI-TOF MS Identification	\$8.00	1-2
<i>Mycoplasma bovis</i> culture	\$18.00	3-14
<i>Salmonella</i> culture, environmental samples (stalls, barns & litter)	\$29.00	3
<i>Salmonella spp.</i> culture	\$37.00	3

# OADDL

College of Veterinary Medicine

<b>BACTERIOLOGY, continued</b>		
<b>Species / Test</b>	<b>Fee</b>	<b>Turnaround Time (Business Days)</b>
<i>Salmonella</i> serotyping (speciation) performed as batch testing at no additional fee; expedited shipping is available upon request	Contact lab	Contact lab
<i>Salmonella pullorum</i> screening, per bird	\$75.00	11
<i>Tritrichomonas foetus</i> culture (InPouch™ TF only) PCR confirmation on positives (individual)	\$15.00 \$27.00	7 days 2-5 more days

<b>HISTOPATHOLOGY</b>		
<p>Biopsy accessions will be reported in short or long (detailed) report formats. The short report format consists of the diagnosis along with interpretative comments regarding the biologic behavior and tissue margins (as applicable/feasible). The long report format includes an additional detailed description of the microscopic changes. The default reporting format will be short report unless requested otherwise.</p> <p>Histochemical staining (special staining) is included in the histopathology fee.</p>		
<b>Species / Test</b>	<b>Fee</b>	<b>Turnaround Time (Business Days)</b>
Biopsy, short format (1-3 sites or lesions from same animal)	\$85.00	2-4
Each additional site or lesion	\$15.00	2-4
Biopsy, long (detailed) format (1-3 sites or lesions from same animal)	\$135.00	2-4
Each additional site or lesion	\$15.00	2-4
Decalcification (to remove calcium/bone from tissue)	\$8.00	2-5 (size dependent)
Duplicate slides, each	\$15.00	2
Immunohistochemical (IHC) staining (per antibody)	Contact lab	Contact lab
Lab animal surveillance (multiple tissues in formalin)	\$85.00	2-4
Histology Lab Complex Tissue Fee	\$20.00	2-4
Slide consult (H&E stained; short report format)	\$85.00	2-4
Zoo pathology surveillance (multiple tissues in formalin)	\$85.00	2-4

<b>MYCOLOGY</b>		
Dermatophyte culture (hair, scab)	\$35.00	14 days minimum
Fungal culture	\$39.00	14 days minimum

College of Veterinary Medicine

<b>PARASITOLOGY</b>		
<b>Discounted Test Packages</b>		
<b>Species / Test</b>	<b>Fee</b>	<b>Turnaround Time (Business Days)</b>
Canine heartworm antigen- before and after heat treatment (1.0 mL serum or plasma), with microfilaria test (modified Knott's, 1.0 mL whole blood)	\$22.00 \$27.00	Same day
Centrifugal Flotation / Direct Smear	\$22.00	Same day
Centrifugal Flotation / Baermann 1-10 samples >10samples	\$36.00 each \$34.00 each	1
Centrifugal Flotation / Sedimentation 1-10 samples >10 samples	\$40.00 each \$38.00 each	Same day
Fecal Egg Count (McMaster) / Sedimentation	\$40.00	1
<b>Routine Testing</b>		
Baermann (Lungworm detection test)	\$18.00	1
Canine heartworm antigen (DiroCHEK), tested before & after heat treatment (0.5 mL serum or plasma)	\$24.00	Same day
Canine post heat treatment heartworm antigen (0.5 mL serum or plasma)	\$18.00	Same day
Coproculture (nematode culture - 20 g feces)	\$80.00	2-3 weeks
Direct Smear (3-5 g fresh feces)	\$8.00	Same day
Fecal Egg Count (McMaster), (4-6 g fresh feces), sensitivity 25 EPG, 1-10 samples >10 samples	\$18.00 each \$16.00 each	Same day
Fecal Egg Count (MiniFLOTAC) (feces), sensitivity of 5-10 EPG	\$20.00	1
Fecal Egg Count (Wisconsin), (2-6 g fresh feces), sensitivity 1 EPG, 1-10 samples >10 samples	\$25.00 each \$22.00 each	Same day
Feline post heat treatment heartworm antigen (0.5 mL serum or plasma)	\$16.00	Same day
Centrifugal Flotation	\$18.00	Same day
<i>Giardia</i> antigen (1 g fresh feces)	\$26.00	Same day
Gross parasite ID	\$20.00 - \$80.00	Same day
Hemoparasite exam (Wright-Giemsa stain), 1 mL EDTA blood	\$18.00	Same day
Heartworm microfilaria test (modified Knott's)	\$25.00	Same day
Sedimentation (Fluke detection test) 1-10 samples >10 samples	\$34.00 each \$30.00 each	Same day
Tick identification	\$10.00	Same day
Total worm count (Abomasal content)	\$80.00	1
