

OADDL

College of Veterinary Medicine

Fee Schedule (effective 7/1/23) General Policies

The Oklahoma Animal Disease Diagnostic Laboratory (OADDL) is open 8:00 AM to 5:00 PM Monday through Friday (excluding OSU holidays/closures). Specimens, including deceased animals, may be received at any time during routine business hours.

Charges in this Fee Schedule apply to specimens submitted for *diagnostic testing* and are subject to change. Our policies and a complete list of testing (including specimen requirements and current pricing) are available at <https://oaddl.okstate.edu/>.

Contact OADDL prior to submission to discuss *research submissions*.

Live animals are not accepted at OADDL. Testing of non-human primate specimens at OADDL is restricted; please call the laboratory *prior to submission* of these cases.

OADDL does not perform cosmetic necropsies and does not return animal remains to veterinarians or owners. Private cremation services are available by third parties. Clients must indicate their desire for private cremation at the time of submission and promptly make arrangements with a crematory.

Weekend/Holiday deceased animal submissions must be scheduled in advance by calling the lab between 8:00 AM and 5:00 PM to schedule delivery. A \$125 fee applies.

Samples can be deposited in the incubator (Trich pouches), refrigerator (fresh tissue, blood, Trich PBS tubes etc.) or drop box (fixed tissue) in the Receiving vestibule (west side of building) at any time 24/7.

Rabies specimens can be submitted at any time 24/7/365.

Submitting animal owners and producers are encouraged to consult with their veterinarian. Fees charged by veterinarians usually reflect their time, expertise, expense to collect appropriate samples and ship the samples to OADDL, interpret the results, and implement effective intervention strategies; it is standard for fees charged by veterinarians to exceed the laboratory test fee.

Consultation services, legal depositions, court appearances, research support, and work performed for the purpose of product validation or commercialization will incur charges above the fees in this Fee Schedule.

The submission of specimens for testing at OADDL constitutes a contract for delivery of test results to the submitter. Submitted specimens and derivatives shall become the property of OADDL.

STAT/Rush testing may be available, depending on daily workload. Please contact the laboratory in advance if expedited testing is needed.

A Summary of Charges will be attached to the Final Report from OADDL. The Summary of Charges is not an official invoice. A monthly billing statement will be sent from the Oklahoma State University Bursar's Office at the end of the month following test completion.

GENERAL FEES

OADDL does not charge an Accession Fee.

Reports are emailed at no cost. A \$5.00 fee will be assessed to mail reports via USPS (excluding regulatory papers).

Legal and/or Insurance Fee on Necropsy Cases (\$300.00)

Extended storage of specimens on OADDL cases will incur an additional fee (restrictions apply).

Weekend & Holiday Necropsy submission fee (\$125.00)

OADDL accepts necropsy submissions from 8:00 AM – 5:00 PM on weekends and holidays (except Thanksgiving or Christmas day). Call the lab to schedule delivery time.

Rabies testing is free of charge when animal brains, whole bodies of small animals measuring ≤12” or decapitated heads of small animals (dogs, cats etc.) are submitted.

Whole bodies of animals measuring ≥12” or large animal (cow, horse) heads incur fees for decapitation, brain removal, and/or disposal. Rabies specimens can be submitted 24/7/365. Only boxed specimens can be received outside of OADDL business hours. Please follow signage found at our west entrance.

GENERAL		
Service / Test	Fee	Turnaround Time (Business Days)
Mailing report by USPS (excludes regulatory papers)	\$5.00	--
Legal and/or Insurance Case	\$300.00	--
Weekend & Holiday Necropsy submissions	\$125.00	--
Rabies add-on fees (to be billed to the submitter)		
Whole body submitted ≥12 in length, (excludes rabies testing with necropsy)		
Decapitation (dogs, cats, raccoon etc.), plus disposal	\$35.00	--
Decapitation (cow, horse etc.), plus disposal	\$50.00	--
Whole head submitted (cow, horse etc.)	\$35.00	--

CLINICAL PATHOLOGY (Antech Diagnostics, Inc.)
Charges for hematology, cytology, & clinical pathology services are levied by Antech Diagnostics, Inc. A handling/reporting fee of \$8.00 will be applied to each accession for Antech only submissions.

OADDL

College of Veterinary Medicine

NECROPSY

Necropsy charges include gross examination & histopathology.
Laboratory testing & disposition of animal remains incur additional fees.

Multiple, related neonates (<1 month old), submitted at the same time

Food animal or equine \$235 for up to 2 animals of same species per accession
Companion animal \$205 for up to 3 animals of same species per accession

Multiple, related (non-neonate) animals submitted at the same time

Food animal or equine \$235 for the first animal
 \$50 for each additional animal (maximum of 3 animals per accession)
Companion animal \$205 for the first animal
 \$30 for each additional animal (maximum of 3 animals per accession)
Poultry \$105 for up to 3 birds of the same species

Species / Test	Fee	Turnaround Time (Business Days)
Bovine Respiratory Disease (BRD) Field Necropsy Panel includes BVD ELISA, aerobic culture and histopathology (submit fresh ear notch in saline, fresh lung, formalin fixed lung)	\$100.00	5-10
Small Animals- companion & exotic necropsy	\$205.00	5-10
Large Animals- food animal, equine & exotic necropsy	\$235.00	5-10
Poultry necropsy	\$105.00	5-10
Spinal cord removal (only available with necropsy)	Sm. Animal \$50.00 Lg. Animal \$175.00	-
Small animal limb examination (with disposal)	\$55.00	5-10

DISPOSITION OF ANIMAL REMAINS

Incineration (no ashes returned) is the default mechanism for all companion animals. See below.
Private cremation (ashes returned) is available upon request at the time of submission. Submitter is responsible for making arrangements with the crematory of their choice. The crematory will pick up the remains at OADDL. A hold charge will apply (see below).

Companion animal/exotics < 10 pounds	\$20.00	--
Companion animal/exotics 11-40 pounds	\$40.00	--
Companion animal/exotics > 41 pounds	\$60.00	--
Food Animal/Equine < 100 pounds	\$60.00	--
Food Animal/Equine 101-500 pounds	\$125.00	--
Food Animal/Equine 501-1,000 pounds	\$135.00	--
Food Animal/Equine 1,001-1,500 pounds	\$155.00	--
Food Animal/Equine >1,501 pounds	\$175.00	--
Private cremation hold charge, small animal	\$15.00	--
Private cremation hold charge, large animal	\$55.00	--

OADDL

College of Veterinary Medicine

Serology & Molecular Diagnostic (PCR) Tests are Listed Below by Species.

AVIAN		
Species / Test	Fee	Turnaround Time (Business Days)
Avian Influenza ELISA (serum) 1-49 samples >50 samples	\$5.00 \$2.75	1-2 1-2
Avian Influenza Agar Gel Immunodiffusion (AGID)	\$4.50	4-7
Avian Influenza PCR (oropharyngeal/tracheal or cloacal swab, trachea)	\$50.00	1-2
Exotic Newcastle Disease (END/APMV-1) PCR (oropharyngeal/tracheal or cloacal swab, trachea)	\$50.00	1-2
<i>Mycoplasma gallisepticum</i> / <i>M. synoviae</i> ELISA (serum) 1-49 samples >50 samples	\$4.50 \$2.00	2-3 2-3
<i>Mycoplasma gallisepticum</i> / <i>M. synoviae</i> PCR (oropharyngeal/tracheal swab, respiratory tract tissue)	\$50.00	2
<i>Salmonella pullorum-typhoid</i> agglutination (serum) 1-49 samples >50 samples	\$4.00 \$1.25	2-4 2-4
<i>Salmonella pullorum-typhoid</i> microagglutination titer (serum)	\$4.00	2-4
BOVINE		
Discounted Serology Test Panels		
Species / Test	Fee	Turnaround Time (Business Days)
Bovine Abortion- <i>Leptospira</i> , IBR, BVD SN, BVD ELISA, <i>Brucella</i> & Neospora (serum)	\$54.00	3-7
Bovine ELISA Panel- BVD, BLV, Johne's; minimum 11 animals (serum)	\$20.00	2-5
Bovine Respiratory SN Profile 1- IBR, BVD-1, PI3, BRSV (serum)	\$30.00	3-7
Bovine Respiratory SN Profile 2- IBR, BVD-1, BVD-2, PI3, BRSV (serum)	\$35.00	3-7
Discounted Molecular Test Panels		
Bovine Respiratory Panel (Basic)- BVD, IBR & BRSV (respiratory tract swab, lung)	\$60.00	2-5
Bovine Respiratory Panel (Comprehensive)- BVD, IBR, BRSV, BCV and <i>M. bovis</i> (respiratory tract swab, lung)	\$80.00	2-5
Serology Routine Testing- A 10% volume discount will be applied to ELISA tests when 20 or more samples are submitted for the same test on a single submission. <i>Exceptions include:</i> regulatory testing, discounted panels/tests and referral laboratory testing.		
Abortion Panel (fetus)	See page 9	7-10
Anaplasma ELISA (serum)	\$13.50	2-3

OADDL

College of Veterinary Medicine

BOVINE, continued		
Species / Test	Fee	Turnaround Time (Business Days)
<i>Anaplasma marginale</i> PCR (EDTA blood, spleen)	\$45.00	2-5
Bluetongue ELISA (serum)	\$10.50	2-3
Bluetongue PCR (EDTA blood, spleen)	\$47.00	2-5
Bovine Coronavirus PCR (feces, intestine, lung, respiratory tract swab, fecal swab)	\$45.00	2-5
Bovine Leukemia Virus (BLV) ELISA (serum)	\$10.50	2-3
Bovine Respiratory Syncytial Virus (BRSV) SN (serum)	\$11.00	4-7
Bovine Respiratory Syncytial Virus (BRSV) PCR (lung, nasal swab or respiratory tract swab)	\$45.00	2-5
<i>Brucella abortus</i> / <i>B. suis</i> (serum) card test	\$4.50	1-2
<i>Brucella abortus</i> Fluorescence Polarization Assay (FPA)	\$4.50	1-2
BVD ELISA (serum or fresh ear notch)	1-5 animals = \$9.00 >5 animals = \$5.00	2-3 2-3
BVD Type 1 SN (serum)	\$11.00	3-7
BVD Type 2 SN (serum)	\$11.00	3-7
BVD PCR (lung, lymph node, kidney, spleen, serum)	\$45.00	2-5
Diarrhea Panel	See page 10	4-6
General Herpesvirus PCR (multiple tissues/fluids, swab)	\$50.00	2-5
DNA Sequencing of positives, additional fee	\$30.00	2-5
IBR SN (serum)	\$11.00	3-7
IBR PCR (nasal or eye swab, tissues, lung, liver, brain)	\$45.00	2-5
Johne's ELISA (serum)	\$10.50	2-3
Johne's individual PCR (feces, 5g minimum)	\$48.00	2-5
Johne's pooled PCR (feces, 5g minimum) Submit samples individually, <= 5 fecals/pool. If pool is positive, ea. fecal sample will be tested at \$48 ea.	\$55.00	2-5
<i>Leptospira</i> MAT (includes <i>L. canicola</i> , <i>L. grippotyphosa</i> , <i>L. hardjo</i> , <i>L. icterohemorrhagiae</i> , <i>L. pomona</i>) (serum)	\$29.00	2-3
<i>Leptospira</i> sp. PCR (kidney, urine)	\$37.00	2-5
<i>Mycoplasma bovis</i> PCR (lung, joint fluid, resp. tract swab)	\$40.00	2-5
<i>Neospora</i> ELISA (serum)	\$12.00	2-3
Parainfluenza 3 (PI3) Virus SN (serum)	\$11.00	3-7
Pregnancy ELISA (serum)	1-5 animals = \$10.00 >5 animals = \$4.50	2-3 2-3
Rotavirus group A, Immunocard test (feces, intestine)	\$35.00	2-5

OADDL

College of Veterinary Medicine

BOVINE, continued		
Species / Test	Fee	Turnaround Time (Business Days)
<i>Tritrichomonas foetus</i> culture (Individual InPouch™ TF). Positives must be confirmed by PCR	\$15.00 \$27.00	7
<i>Tritrichomonas foetus</i> PCR Individual InPouch™ TF or PBS tube	\$27.00	1-3
<i>Tritrichomonas foetus</i> pooled PCR Submit InPouch™ TF or PBS tube. If pool is positive, specimens will be tested individually at \$27 each	\$54.00/pool (up to 5 animals)	1-3

CANINE		
Discounted Serology Test Panels		
Species / Test	Fee	Turnaround Time (Business Days)
Tick Profile- antigen to <i>Dirofilaria immitis</i> & antibody to <i>E. canis</i> , <i>E. ewingii</i> , <i>A. phagocytophilum</i> , <i>A. platys</i> , <i>B. burgdorferi</i> (Lyme) and RMSF (IFA) (serum)	\$60.00	2-3
Routine Testing		
Abortion panel (fetus)	See page 9	5-7
<i>Brucella canis</i> IFA (serum)	\$42.00	2-3
Canine Distemper Virus PCR (lung, EDTA blood, nasal swab, conjunctival swab, CSF, urine)	\$47.00	2-5
Canine Herpesvirus PCR (respiratory tract swab/tissue, kidney, liver)	\$45.00	2-5
Canine Influenza PCR (respiratory tract swab/tissue)	\$45.00	2-5
Canine Parvovirus PCR (feces, intestine)	\$45.00	2-5
Diarrhea panel	See page 10	4-6
<i>Leptospira</i> MAT (includes <i>L. canicola</i> , <i>L. grippityphosa</i> , <i>L. hardjo</i> , <i>L. icterohemorrhagiae</i> , <i>L. pomona</i>) (serum)	\$29.00	2-3
<i>Leptospira</i> sp. PCR (kidney, urine)	\$37.00	2-5
Rocky Mountain Spotted Fever (RMSF) IFA (serum)	\$35.00	2-3

College of Veterinary Medicine

FELINE		
Species / Test	Fee	Turnaround Time (Business Days)
<i>Cytosuxoon felis</i> PCR (EDTA blood)	\$40.00	2-3
Diarrhea panel	See page 10	4-6
Feline Parvovirus / Panleukopenia PCR (feces, intestine)	\$45.00	2-5
<i>Francisella tularensis</i> "Tularemia" PCR (spleen or liver)	\$45.00	1-3

PORCINE		
Abortion panel (fetus)	See page 9	5-7
<i>Brucella abortus</i> / <i>B. suis</i> (serum) card	\$4.50	1-2
<i>Brucella abortus</i> card & <i>Pseudorabies</i> gB ELISA (serum)	\$10.50	1-3
Diarrhea panel	See page 10	4-6
<i>Leptospira</i> MAT (includes <i>L. canicola</i> , <i>L. grippotyphosa</i> , <i>L. hardjo</i> , <i>L. icterohemorrhagiae</i> , <i>L. pomona</i>) (serum)	\$29.00	2-3
<i>Leptospira</i> sp. PCR (kidney, urine)	\$37.00	2-5
Porcine Coronavirus Multiplex PCR (feces, fecal swab, oral fluids, environmental swab, intestine) (differentiates between PEDV, TGEV & SDCoV)	\$57.00	1-2
PRRSV PCR - NA/EU (serum, oral fluids, blood swabs, semen, processing fluids, respiratory tissue) pooling available, contact lab for details	\$45.00	1-2
Pseudorabies, gB ELISA (serum)	\$6.75	2-3
Swine Influenza Virus PCR (oral fluids, nasal swab, lung)	\$50.00	1-2

OADDL

College of Veterinary Medicine

DISCOUNTED ABORTION PANELS (fees are capped for testing outlined in the panels below)	
Panels include up to 2 (cattle, goat, sheep, horse) or 3 (dog, pig) fetuses on one submission submitted at the same time. If more than one fetus is submitted, samples will be pooled. Testing will be performed on placenta, if available. Select testing is performed at referral laboratories.	
NOTE: Serological testing on serum from the dam and fluid from the fetus is available at additional cost (exception: <i>Brucella</i> card test in dogs; see below). The submission of acute and convalescent serum samples from the dam is encouraged.	
BOVINE	\$290.00
Necropsy with disposal (whole fetus & placenta) Histopathology Bacteriology (pooled aerobic culture on lung & abomasal fluid; <i>Brucella</i> & <i>Campylobacter</i> culture on placenta/abomasal fluid) Molecular Diagnostics / PCR (IBR on liver; BVDV on kidney) Toxicology (copper & selenium content on liver; nitrate content on aqueous fluid)	
CAPRINE AND OVINE	\$250.00
Necropsy with disposal (whole fetus & placenta) Histopathology Bacteriology (pooled aerobic culture on lung & abomasal fluid; <i>Brucella</i> & <i>Campylobacter</i> culture on placenta/abomasal fluid) Molecular Diagnostics / PCR (BVDV on kidney, Bluetongue virus on spleen. <i>Coxiella</i> & <i>Chlamydophila</i> on placenta – referral lab) Toxicology (copper & selenium content on liver)	
EQUINE	\$250.00
Necropsy with disposal (whole fetus & placenta) Placenta examination Histopathology Bacteriology (pooled aerobic culture on lung & stomach fluid) Molecular Diagnostics / PCR (EHV on liver; EVA on lung – referral lab)	
CANINE	\$250.00
Necropsy with cremation (whole fetus & placenta) Histopathology Bacteriology (pooled aerobic culture (lung & stomach fluid; <i>Brucella</i> & <i>Campylobacter</i> culture (stomach fluid) Molecular Diagnostics / PCR (CHV on liver) Serology (<i>Brucella</i> card test on serum from dam)	
PORCINE	\$250.00
Necropsy with disposal (whole fetus & placenta) Histopathology Bacteriology (pooled aerobic culture (lung & stomach fluid); <i>Brucella</i> culture (placenta/stomach fluid) Molecular Diagnostics (Parvovirus, PCV-2, PRV & PRRSV PCR on lung – referral lab)	

OADDL

College of Veterinary Medicine

DIARRHEA PANELS (fees are capped for testing outlined in the panels below)	
Applies only to feces and loops of intestine. Ability to perform all tests in the panel depends on the volume of intestinal contents or feces provided (approximately 2 Tablespoons required for all tests).	
BOVINE	\$185.00
Aerobic culture with antibiotic susceptibility (susceptibility only performed on calves < 2 months) <i>Clostridium perfringens</i> culture with toxin typing by PCR <i>Salmonella</i> culture with antibiotic susceptibility Rotavirus group A, Immunocard test (only performed on calves < 6 months) Coronavirus PCR Centrifugal fecal flotation; direct fecal smear with staining (includes Cryptosporidium)	
CANINE/FELINE	\$185.00
Aerobic culture with antibiotic susceptibility <i>Clostridium perfringens</i> culture with toxin typing by PCR <i>Salmonella</i> culture with antibiotic susceptibility <i>Campylobacter jejuni</i> direct culture Parvovirus PCR Centrifugal fecal flotation; direct fecal smear with staining	
CAMELID	\$150.00
Aerobic culture with antibiotic susceptibility <i>Clostridium perfringens</i> culture with toxin typing by PCR <i>Salmonella</i> culture with antibiotic susceptibility Centrifugal fecal flotation; direct fecal smear with staining	
EQUINE	\$185.00
Aerobic culture with antibiotic susceptibility <i>Clostridium perfringens</i> culture with toxin typing by PCR <i>Salmonella</i> culture with antibiotic susceptibility Rotavirus group A, Immunocard test (only performed on animals < 6 months) Centrifugal fecal flotation; direct fecal smear with staining	
CAPRINE & OVINE	\$115.00
Aerobic culture with antibiotic susceptibility <i>Clostridium perfringens</i> culture with toxin typing by PCR <i>Salmonella</i> culture with antibiotic susceptibility Centrifugal fecal flotation; direct fecal smear with staining	
PORCINE	See below
Suckling / nursery (\$150.00)	
Aerobic culture with antibiotic susceptibility Rotavirus group A, Immunocard test Coronavirus (TGE, PEDV, SDCoV) PCR Centrifugal fecal flotation; direct fecal smear with staining	
Grower / finisher (\$200.00)	
Aerobic culture with antibiotic susceptibility <i>Salmonella</i> culture with antibiotic susceptibility Coronavirus (TGE, PEDV, SDCoV) PCR <i>Lawsonia & Brachyspira hyodysenteriae/hampsonii</i> PCR-Referral lab Centrifugal fecal flotation; direct fecal smear with staining

College of Veterinary Medicine

BACTERIOLOGY		
Bacteriology fees are levied on a per sample basis unless otherwise specified. Test packages include up to 2 antibiotic susceptibility profiles on organisms selected by OADDL microbiologist. Additional antibiotic susceptibility profiles performed at submitter's request will be charged at the routine testing rate. The urine package below does not include free-catch samples.		
Bacteriology Discounted Test Packages		
Species / Test	Fee	Turnaround Time (Business Days)
Aerobic culture with antibiotic susceptibility(ies)	\$70.00	2-3
Additional culture (ID only) from additional site/swab from the same animal	\$20.00	2-3
Anaerobic culture & Aerobic culture with antibiotic susceptibility(ies)	\$80.00	5
Fungal culture & Aerobic culture with antibiotic susceptibility(ies)	\$95.00	14 minimum
<i>Salmonella</i> culture with antibiotic susceptibility	\$45.00	3-4
Urine culture with antibiotic susceptibility(ies) (cystocentesis or catheter-collected)	\$38.00	2-3
Milk culture (includes one antibiotic susceptibility test by Kirby-Bauer)	\$25.00	2-3
Additional antibiotic susceptibility(ies) (per isolate)	\$10.00	2-3
Bacteriology Routine Testing		
Aerobic culture	\$37.00	2
Anaerobic culture	\$39.00	5
Antibiotic susceptibility (MIC)	\$38.00	1-2 days after culture
Antibiotic susceptibility (Kirby-Bauer / Disc Diffusion)	\$37.00	1-2 days after culture
Blood culture (aerobic / anaerobic)	\$36.50 / \$38.50	4 / 8
<i>Bacillus anthracis</i> culture	\$50.00	2
<i>Campylobacter fetus</i> culture	\$28.00	7
<i>Campylobacter jejuni</i> direct culture	\$28.00	7
<i>Clostridium spp.</i> culture / Blackleg	\$12.00	2-3
<i>Clostridium chauvoei</i> Fluorescent Antibody (FA)	\$20.00	1-2
<i>Clostridium perfringens</i> culture	\$12.00	2-3
Direct smear examination (acid-fast, Gram)	\$13.00	1
MALDI-TOF MS Identification	\$8.00	1-2
<i>Mycoplasma spp.</i> culture	\$18.00	3-14
<i>Salmonella</i> culture, environmental samples (stalls, barns & litter)	\$25.00	3
<i>Salmonella spp.</i> culture	\$37.00	3

BACTERIOLOGY, continued		
Species / Test	Fee	Turnaround Time (Business Days)
<i>Salmonella</i> serotyping (speciation) performed as batch testing at no additional fee; expedited shipping is available upon request	Contact lab	Contact lab
<i>Salmonella pullorum</i> screening, per bird	\$75.00	9
<i>Tritrichomonas foetus</i> culture (InPouch™ TF only) PCR confirmation on positives (individual)	\$15.00 \$27.00	7 days 2-5 more days

HISTOPATHOLOGY		
<p>Biopsy accessions will be reported in short or long (detailed) report formats. The short report format consists of the diagnosis along with interpretative comments regarding the biologic behavior and tissue margins. The long report format includes an additional detailed description of the microscopic changes. The default reporting format will be short report unless requested otherwise.</p> <p>Histochemical staining (special staining) are included in the histopathology fee.</p>		
Species / Test	Fee	Turnaround Time (Business Days)
Biopsy, short format (1-3 sites or lesions from same animal)	\$85.00	1-2
Each additional site or lesion	\$15.00	1-2
Biopsy, long (detailed) format (1-3 sites or lesions from same animal)	\$135.00	1-2
Each additional site or lesion	\$15.00	1-2
Decalcification (to remove calcium/bone from tissue)	\$8.00	2-5 (size dependent)
Duplicate slides, each	\$15.00	2
Immunohistochemical (IHC) staining (per antibody)	Contact lab	Contact lab
Lab animal surveillance (multiple tissues in formalin)	\$85.00	1-2
Pathologist assistance in trimming large/complex tissues	\$35.00	1-2
Slide consult (H&E stained; short report format)	\$85.00	1-2
Zoo pathology surveillance (multiple tissues in formalin)	\$85.00	1-2

MYCOLOGY		
Dermatophyte culture (hair, scab)	\$35.00	14 days minimum
Fungal culture	\$39.00	14 days minimum

OADDL

College of Veterinary Medicine

PARASITOLOGY			
Discounted Test Packages			
Species / Test	Fee	Turnaround Time (Business Days)	
Canine heartworm antigen- before and after heat treatment (1.0 mL serum or plasma), with microfilaria test (modified Knott's, 1.0 mL whole blood)	\$22.00 \$27.00	Same day	
Centrifugal Flotation / Direct Smear	\$22.00	Same day	
Centrifugal Flotation / Baermann, 1-10 samples 11+ samples	\$36.00 \$34.00	1	
Centrifugal Flotation / Sedimentation, 1-10 samples 11+ samples	\$40.00 \$38.00	Same day	
Fecal Egg Count (McMaster) / Sedimentation	\$40.00	1	
Heartworm and intestinal parasites diagnostic tests- discount packages			
Test	25-50 samples	51-100 samples	>100 samples
<i>D. immitis</i> antigen test before and after heat treatment	\$20.00	\$17.50	\$17.00
<i>D. immitis</i> antigen test before and after heat treatment <i>plus</i> microfilariae Knott's test	\$24.00	\$22.00	\$21.00
<i>D. immitis</i> antigen test before and after heat treatment <i>plus</i> fecal centrifugation	\$38.00	\$32.00	\$30.00
<i>D. immitis</i> antigen test before and after heat treatment <i>plus</i> microfilariae Knott's test, <i>plus</i> fecal centrifugation	\$39.00	\$34.00	\$32.00
Routine Testing			
Baermann (Lungworm detection test)	\$18.00	1	
Canine heartworm antigen (DiroCHEK), tested before & after heat treatment (0.5 mL serum or plasma)	\$22.00	Same day	
Canine post heat treatment heartworm antigen (0.5 mL serum or plasma)	\$16.00	Same day	
Coproculture (nematode culture - 20 g feces)	\$75.00	2-3 weeks	
Direct Smear (3-5 g fresh feces)	\$8.00	Same day
